

EECS 22L: Anteater Poker User Manual Grading Criteria

Prepared by: Alex Huang

May 6, 2026

The first deliverable in the *Online Game of Anteater Poker* project is the initial version of the user manual that specifies the expected software product. While this document can be revised in the following week so that it matches the actual implementation in detail, it should describe the user experience of the software product as anticipated. Specifically, the user manual should describe the installation and use of the software by the user and contain a detailed description of the functionality with all options.

For full credit (100%), the document submitted by your team should include the following sections:

Title page (10 points)

- Software title, version
- Author/producer, affiliation

Front matter (20 points)

- Table of contents
- Glossary

1. Online Poker (20 points)

1. Usage scenario
 - Sketch of a typical screenshot
